Core Curriculum
General Requirements

A student must earn a minimum of 120 credit hours to be awarded the baccalaureate degree. The number of credit hours required for graduation may be higher in certain major programs **or** if the student elects to pursue a second major. The requirements of the Core Curriculum represent 48 credit hours. Beyond the requirements of the Core Curriculum and of a student's chosen major program, the balances of the credit hours required for graduation are free electives. Keep in mind that **some majors require specific core courses**. It is important to refer to your Major Academic Planner and consult with your academic advisor when selecting your courses.
